

SUBSTITUTE

ORDINANCE ESTABLISHING THE CHICAGO INFRASTRUCTURE TRUST AND PROVIDING FOR CERTAIN RELATED MATTERS

WHEREAS, infrastructure is a vital and foundational element in the future competitiveness of the City of Chicago (the “City”) and the City’s municipal infrastructure assets including, without limitation, mass transit, surface and highway transportation, freight rail, air and maritime ports, education (elementary, secondary and community college) facilities, water and sewer and other services and facilities require significant and on-going improvement and upgrades; and

WHEREAS, the City’s status as a leading global city relies in part on its ability to be at the forefront of implementation of energy efficiency programs and initiatives; and

WHEREAS, savings from these energy efficiency initiatives can be significant and sufficient to pay for the upfront capital investment needed initially to finance these initiatives; and

WHEREAS, financing upgrades, improvements and expansions of the City’s infrastructure assets will be challenging, given competing demands for capital that can be raised in the municipal finance markets as well as budget and financial constraints that often result in moneys being allocated to shorter term initiatives and operational expenditures; and

WHEREAS, infrastructure funding from the State and Federal governments has been inconsistent and unpredictable, with demand for funding clearly exceeding the resources available as states and municipalities compete for inevitably limited funding; and

WHEREAS, a range of private investors and organizations, including without limitation foundations, labor unions, public sector and private sector pension funds, private equity funds, mutual funds and sovereign wealth funds have demonstrated a growing interest in low-risk, long-term infrastructure investments and it is in the best interest of the City to work collaboratively with such investors and organizations in a transparent and strategic manner to arrange required financing for a range of transformative infrastructure projects for the benefit of the City and its residents; and

WHEREAS, the City needs to diversify its options and alternatives for financing of infrastructure projects, including financing arrangements that are predictable and attractive to a broad range of investors, all in a manner that is fully transparent and on terms and conditions that benefit the City and its residents; and

WHEREAS, it is in the best interest of the City to establish a professionally managed and governed infrastructure fund (the “Chicago Infrastructure Trust” or the “Trust”) that will serve the following purposes and objectives: provide funding and credit support to qualifying transformative infrastructure projects; play an important coordinating and facilitative role in attracting private investment for these infrastructure projects; have associated grant-making capabilities for select infrastructure projects; facilitate funding of infrastructure projects affecting

one or more co-ordinate units of local government that will enable the sharing of labor, resources and knowledge between and among such units of local government; and establish high standards of transparency regarding the types of capital and investments received, the infrastructure projects funded, the investment returns on such projects and other information that will be easily accessible to the public and subject to rigorous oversight and audit; and

WHEREAS, the Trust will be capitalized by a combination of moneys appropriated by the City Council of the City and capital provided by a range of third-party investors and organizations; and

WHEREAS, examples of infrastructure funds and banks exist across the world, including Canada's P3C Fund, the European Infrastructure Bank and the recently announced infrastructure banks in the United Kingdom; and the United States Department of Transportation's Transportation Infrastructure Financing and Innovation Act (TIFIA) Program has similar objectives on a national level although limited to surface transportation projects; and

WHEREAS, the Trust will be among the first of its kind for any city or local government in the United States; and

WHEREAS, it is intended that all assets of the Trust shall be held in trust solely for the purposes and objectives described in this Ordinance; and

WHEREAS, any project undertaken by the City with funding received from or provided by the Trust will comply with City procurement rules and policies; and

WHEREAS, repayment of any moneys provided by the Trust to finance or support any infrastructure project will not be a general obligation of the City and will not be secured by the City's full faith and credit.

Now, Therefore, Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Organization and Qualification of the Chicago Infrastructure Fund.

The Chief Financial Officer of the City, the City Comptroller of the City and the Corporation Counsel of the City are each authorized and directed to take such steps as may be necessary to enable the Trust to become duly organized and qualified as an Illinois not-for-profit organization. SECTION 7. Severability.

If any section, paragraph, clause or provision of this Ordinance shall be ruled by any court of competent jurisdiction to be invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the remaining provisions hereof.

SECTION 8. Ordinance Controlling.

To the extent that any ordinance, resolution or order of the City is in conflict with the provisions of this Ordinance, the provisions of this Ordinance shall be controlling. This Section 8 does not preclude the application of Section 2-8-035 ("Sale or lease of city assets - Ordinance requirements") of the Municipal Code.
